## AMES Kompress MAX-TRAC

### Mobile Cabinet Solutions

If you want to make your AMES cabinets even more efficient, put our Kompress MAX-TRAC mobile system to work. Kompress MAX-TRAC is ideal for high-density storage environments. Cabinets are arranged in two compact rows, eliminating traditional aisle space. The front row glides from side-to-side, allowing access to the back row. Access is created only when and where it's needed.

### Save Floor Space and Search Time

With our Kompress MAX-TRAC system, you get more files in less space. And because cabinets are just a few steps apart, search time is reduced as well. Kompress MAX-TRAC adds only two inches to the overall cabinet height. No bulky carriages are required because wheels bolt directly into existing cabinet bases.

### Use any AMES Cabinet

No matter what media you store, AMES has the right cabinet for you. And every AMES cabinet quickly adapts to Kompress MAX-TRAC, without bulky carriages or awkward overhead safety equipment. Available for letter and legal-size files.

### Benefits

- ✓ *Easy to move and reassemble*
- ✓ *Quick access to files and other stored material*
- ✓ *Allows for seamless expansion as your filing needs grow*
- ✓ *Ideal for adding filing space and mobilizing existing cabinetry*
- ✓ *Increase linear filing inches with less space for high-density storage capacity*

# STORAGE SYSTEMS

## Easy to Install, Stable, and Safe

The Kompres MAX-TRAC factory-built deck is easily installed and leveled on existing floor surfaces. The system can be expanded or relocated as your storage requirements change. The interlocking deck sections feature built-in leveling glides, preventing unwanted cabinet "drift" caused by floor irregularities. AMES' anti-tip mechanisms are simple, effective and unobtrusive. Both mobile and stationary cabinets are fully stabilized.

## Specifications

- Deck length configured to up to five cabinets per section
- Deck height adds 2" to overall cabinet height

## Applications

- Decentralized file areas
- Binders, files, electronic media storage
- IT/network storage
- Secure storage

## About AMES

As the recognized leader in the records and information management industry, we develop custom solutions that enable our clients to control, store and access critical information. We offer top quality filing systems, media storage equipment and specialists that solve complex records and information management challenges. With years of experience, we serve clients in a variety of industries including legal, finance, healthcare, insurance, manufacturing, education and government.
